

Press information:

ferrylines.com is turning 10!

Europa's most comprehensive ferry site is turning 10 years old! ferrylines.com wants to celebrate this with its visitors: starting in March 2014 great prizes can be won in a competition every month! More on our facebook page.

Driven by a fantastic idea and the data of 104 shipping companies, ferrylines.com started its bilingual website in March 2004. The idea was to offer all-encompassing information about every ferry connection in Europe on the web. Right from the start, ferrylines.com has been committed to offer its users this unique feature.

The ferry site has been continuously improved year after year: online booking, Ferry News, interactive maps, nine languages, services, special ferry offers, social media and the newest addition: a mobile version for smart phones.

Coincidentally, the core of the ferry site is the extensive ferry data bank, which has grown to include 355 shipping companies with over 1,800 routes and 1,394 ports. No other ferry page offers more!

On the occasion of this anniversary, ferrylines.com is raffling off a unique mini-barbeque in a cool bag every month: perfect for the trip for two! Visitors can find out more about the prize competition on the facebook page of ferrylines.com.
